

WORLD-RENOWNED COMBUSTION SYSTEMS

- Exclusive 3-term PID control system gives excellent temperature control
- Minimal number of burners means less maintenance
- Furnace life of 20+ years without major retrofit
- 360° combustion chamber and even heating
- Exclusive Westech “Turbo” function increases kettle life by 20%
- Thermal efficiency and heat transfer reduces energy costs
- On-site support team oversees installation, wiring, plumbing, and start-up
- Modular construction allows kettle size to be changed without replacing the furnace
- Superior insulation system eliminates heat loss through furnace walls
- Fully adjustable and retractable props support sidewalls to maintain kettle dimensions
- Preassembled

Options Available:

- Ultra Low-NOx and CO Burners
- Leak Detection System
- Auto Heat-up Program
- Automatic Exhaust Damper
- External Thermocouple
- PLC Control

Other Furnaces Available:

- Flat Flame Systems
- High Temperature Ceramic Baths
- Electrically Heated
- Gas or oil fired
